

Ed Mills Picks Campaign Manager

August 8, 2008 — Ed Mills, state representative contender in the 8thth Middlesex District, has named E. Teresa Touey (Photo, left) as his campaign manager.

Touey has served most recently as a government relations consultant advising on projects between the life sciences communities of Massachusetts and Queensland, Australia securing the keynote speaker, U.S. Senator Edward M. Kennedy, for the largest Asia-Pacific biotechnology conference. Since 1994, she has served in key leadership roles in the campaigns of Senators Kennedy and Kerry, Congressman Markey and McGovern, Pennsylvania Congressman

Vice-Admiral Joe Sestak, Massachusetts Democratic Congressional Candidate, Lowell City Councilor Eileen Donoghue, and former Massachusetts State Treasurer and Gubernatorial Democratic Nominee, Shannon O'Brien.

In 2004, she chaired the Natick Democratic Town Committee leading several projects: a presidential debate at Natick High School featuring Congressman Barney Frank as well as providing key support for the election of State Senator Karen Spilka, State Representative David Linsky and State Representative Alice Peisch. Having served on the Massachusetts Democratic State Committee since 1995, last fall she observed the compulsory national election system in Australia in the Brisbane offices of the two members of federal Parliament, Kevin Rudd and Arch Bevis. Kevin is now the country's prime minister. Her favorite campaign is the resounding re-election of her town meeting member from Natick's Precinct One, Frank Volpe, the best MetroWest vote getter for the Democratic party.

Of Mills, Touey says, "I am certain that Ed Mills will work hard, care and make a difference for the voters of his hometown of Hopkinton, as well as Holliston, Medway, Southborough and Westborough. Ed Mills stands for the values of many Americans. He dreams of a better future for his children and his grandchildren. He is the kind of candidate who understands the best that America has to offer: a good sound economy and a good sound democracy which will secure our position in the global community while making the five towns of this district a place where anyone would want to work and raise their family".
